The Centeral committee of the Vermont State Temperance Society believe it is high time renewed exertions were made in the cause of Temperance.

The great political excitement, which for months part, has absorbed public attention, seemed to forbid any special effort on this subject at an earlier day.—There is no time to be lost. The disgraceful defeat of last March is fresh in our recollection; and the evils consequent are before us. The time is at hand when the 'ballot box' will again proclaim the scatiment of the State on this subject; shall it behald that the voice of Vermont is still for Rum!

The committee have decided that it is not expedient to commission agents to lecture on this subject. They

to commission agents to lecture on this subject. have come to this conclusion from various considera-tions; but chiefly because the labors of public agents tend to weaken the sense of personal responsibility.— After all that agents can do, the work must be done by the friends of temperance acting upon their own personal responsibility. But if an agent be employed, the expectation is that he will do the work.

corry part of the state, who will cheerfully do all that remains to be done by way of public lectures, if solicited. every town in the State for the purpose of inquiring what can be done, and deciding to do it. To such a meeting numbers will not be so important as a determined purpose to act. Would it be difficult to make rrangements by which every family might be visited, free conversation be had on the subject of Temperane

and the pledge presented to all who have not signed it?

2. One meeting, at least, should be held in each county before the annual meeting of the State Society. One object of county injectings should be to col-lect facts illustrating the effects of the traffic during the present year, for the benefit of the annual meeting. 3. The annual meeting of the State Temperance Society is appointed to be helden at Burlington the 3d Wednesday (17th day) of January, 1849. Arrangements should be made to send up large county and own delegations to this meeting, from all parts of the

These suggestions are only meant as hints to assist in the recommencement of operations. If the friends of the cause feel their personal responsibility, and realize in any degree the good their efforts may accomplish, and the evils that must follow from inactivity, they will find means to do all that is necessary to a glorious triumph, Then let each one feel that he is bound to do something and that it is expected every man will

Important Certificate of Cures at Rochester, N.Y. The following certificate of cures at Rochester, N. Y. was addressed to Mr Tousey, General Agent for that State :

Rochester, N. Y., June 5, 1816. Sir: Some time last January I was taken with a violent cold attended with a distressing cough, which in the course of a few days brought on a bleeding of the lungs, with much scremes days brought on a bleeding of the langs, with much soreness of the chest, pain in the side and much soreness of the heart. After being confined to my bed for some days and getting no better. Mr Pardel, formerly Deputy Sheriff of this county, recommended me to get a bottle of Doct. Buchan's Hangarian Balsam of Life, observing that he had been similarly afflicted, and by the use of that medicine had been specifily and entirely cured. I immediately got a bottle, and after using it a short time the result was as he predicted,—I gut entirely well.—From the benefit I received from the Balsam, and from the universal good name it beers among my friends who have used it for discases of the langs and chest, I am induced to believe it to be one of the best medicines, sow in use for those discases, and as such recommend it to the public.

A SEVERE SPRAIN cured by the application of the liniment, when three weeks' attention of a skilful physician failed to afford any relief. Who will hesitate when they can be cared for twenty-live cents ! WEYMOUTH LANDING, Mass., May 7, 1817. Weynouth Landyn, Mass., 2129 f. 1017.

This is to certify that my daughter, Caroline, having spranted her ankle, was attended by one of the best Physicians in this section of the country for over three weeks, without any visible relief. I was induced, by the recommendations of the Agent, to try a bottle of Hunt's Limment. The relief was immediate, and I would electfully recommend it to the patronage of the public.
